WHY HELP.com ?

- HELP.com is a platform where people in need (requesters) can connect with those willing to help (helpers).
- Users can request support in categories like food, money, shelter, education, and more.
- Verified users ensure a trustworthy and secure platform for genuine assistance.
- Many people struggle to find direct and reliable help in emergencies.
- Existing solutions (NGOs, government programs) often involve lengthy processes or bureaucracy.
- HELP.com provides an immediate & direct connection between helpers and requesters, ensuring timely assistance.

JSSATE BENGALURU

HELP.com can address urgent real-life problems

- Medical Emergency – A user can request immediate financial help for medical bills.
- Disaster Relief – Victims of floods, earthquakes, or fires can quickly seek shelter or aid.
- Food & Hunger – People facing food scarcity can request meals from local helpers.
- Educational Support – Students in need of books, fees, or guidance can find sponsors.

Frameworks & Technologies Used

- Flask – Backend framework for handling user requests & database operations.
- HTML, CSS – Frontend for creating an intuitive and user-friendly interface.
- MySQL – Database to store user information, requests, and transactions.

FUTURE IMPLEMENTATIONS

- AI-Based Verification – Prevent fake requests by analyzing user behavior.
- Location-Based Matching – Automatically connect nearby requesters & helpers.
- Mobile App – Expand accessibility through an Android/iOS app.
- NGO & Corporate Collaboration – Partner with organizations for large-scale impact.
- Blockchain for Transparency – Ensure 100% transparency in donations and help transactions.

SECURITY & TRUST MEASURES

- Aadhaar & Secret Code Verification
- Strict No Self-Help Rule (Prevent fake offers)
- Mandatory User Location Input
- Rating System to Build Trust

"Join us in making the world a better place—one help at a time!"
